**ORDER**

United States Magistrate Judge William F. Sanderson, Jr., made findings, conclusions and a recommendation in this case. Petitioner filed no objections, but instead filed a motion to amend his original habeas corpus petition, seeking to add another factual allegation regarding his claim that his attorney was ineffective at the sentencing stage. The district court has reviewed the petitioner's motion and determined that the additional allegation he seeks to add fails the two-prong test outlined in *Strickland v. Washington*, 466 U.S. 668 (1984). The petitioner has not shown that his attorney's conduct was objectively unreasonable. *Id.* at 687-91.

The court **ACCEPTS** the findings, conclusions and recommendation of the  
United States Magistrate Judge.

**SO ORDERED.**

February 14, 2008.
